

## FREQUENCY EXCHANGE'S SUBSIDIARY ANNOUNCES SIGNIFICANT PROOF OF CONCEPT TRIAL RESULTS

VANCOUVER, BRITISH COLUMBIA – September 14, 2022 – Frequency Exchange Corp. (“Frequency Exchange” or the “Company”) (TSXV: FREQ ) is pleased to announce that its wholly-owned subsidiary, FREmedica Technologies Inc. (“FREmedica”), has completed a third-party ‘Quality of Life’ Proof of Concept trial. The clinically validated, eight week study demonstrated a significant improvement in 73% of participants, and some improvement in an additional 17% of participants using NIKKI and the Night-Time frequency package.

“When you do clinical studies, you usually don’t get these amazing results that there’s so much improvement on so many levels,” stated Principal Investigator, Dr. Leigh Erin Connealy, MD. “This can be a major enhancement in everyone’s life.”

See Video: <https://vimeo.com/744539637/c4f4a91c75>

NIKKI is a first-of-its-kind frequency emitter that delivers frequency packages into the body designed for wellness and performance enhancement.

“We couldn’t be happier with the results of Dr. Connealy’s study,” says FREmedica CEO, Stephen Davis. “This Proof of Concept trial is validation that NIKKI is a significant contributor to wellness and performance enhancement with improvements demonstrated in energy boost, pain lessening, stress and anxiety relief and overall well-being. We are confident in saying NIKKI puts a round-the-clock wellness centre in your hands and on your wrist. While other devices track body functions, NIKKI works with the body to optimize wellness and performance, making it an ideal companion for other wearables and the millions of people using them.” says FREmedica CEO, Stephen Davis.

### **About Dr. Leigh Erin Connealy, MD**

Dr. Connealy is the Founder and Medical Director of Center for New Medicine and Center for Healing in Irvine CA. Combined, Dr. Connealy’s clinics have become the largest Integrative Clinic in North America, serving almost 50,000 patients.

## About the Company

Based in British Columbia, Canada, the company is focused on the development and commercialization of a frequency emitter to markets worldwide, delivering specialized packages designed for health and wellness as well as performance enhancement. NIKKI is the fifth-generation frequency emitter released by the Company. It is the third wearable technology created by the Company, initially to help clients with chronic Lyme disease. This wearable technology combined with the frequencies is the result of years of development and experimentation with the latest in bio-energetic technology.
