

DR. JASON DEAN JOINS FREMEDICA

For Immediate Release

VANCOUVER, BRITISH COLUMBIA – June 25th, 2024 – Frequency Exchange Corp. (“Frequency Exchange” or the “Company”) (TSXV: FREQ) announces that its wholly-owned subsidiary, **FREmedica Technologies Inc.** (“FREmedica”), has initiated a collaborative partnership with Dr. Jason Dean (“Dr. Dean”). Dr. Dean has joined our Marketing and Wellness Advisory Boards, participated in the current finance round and will play a key role in introducing NIKKI, our Personal Frequency Delivery System you wear, to Health Care Professionals and the general public.

Dr. Jason Dean

Dr. Dean will introduce “NIKKI” through BraveTV.com and Revolution Health; both online advocacies for personal engagement in health and well-being. His podcast devoted to state-of-the-art health knowledge has generated over 15 million views.

Dr. Dean was first to introduce CellCore products and protocols to the public. He intends to carry this success over to presenting FREmedica products and protocols to both health care and public audiences.

Dr. Dean’s professional background includes working with Pinnacle Systems Team Sports and XOS Technologies. He has collaborated with the NFL, MLB, NHL, NBA, NASCAR, PGA Tour, and USTA. Dr. Dean will outline the role NIKKI technology has to play in these professional sports.

Dr. Dean’s comments:

“Much like the Founder of FREmedica, my journey into natural health care was personal and prompted by severe health issues. My wife Dr. Lisa Palmer introduced me to a health regimen centered on diet, nutrition, supplements, and chiropractic care which saved my life and fueled my passion for natural health care. I have personally experienced the benefits of wearing NIKKI and have heard from other Doctors and Practitioners the benefits they and their patients are experiencing while wearing NIKKI. I believe NIKKI should complement all healing regimes being offered to our patients by all health care providers.” says Dr. Dean.

About Frequency Exchange Corp.

Based in British Columbia, Canada, the company is focused on the development and global commercialization of a personal Frequency Delivery System called NIKKI and worn on the wrist. NIKKI delivers specialized frequency sets designed to enhance wellness and improve performance. The brand “**NIKKI**” is the third generation of wearable technology created by the Company and is used to address multiple health issues including Lyme disease. This personal Frequency Delivery System combined with the frequency sets it delivers represents the result of years of research and development in advanced bioenergetic technology.

Cautionary Note Regarding Forward-Looking Information

Certain information contained herein constitutes “forward-looking information” under Canadian securities legislation. Forward-looking information includes, but is not limited to, statements with respect to the trading date of the Company’s common shares on the Exchange. Generally, forward-looking information can be identified by the use of forward-looking terminology such as “will” or variations of such words and phrases or statements that certain actions, events or results “will” occur. Forward-looking statements are based on the opinions and estimates of management as of the date such statements are made, and they are subject to known and unknown risks, uncertainties and other factors that may cause the actual results to be materially different from those expressed or implied by such forward-looking statements or forward-looking information. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Readers should not place undue reliance on forward-looking statements and forward-looking information. The Company will not update any forward-looking statements or forward-looking information that are incorporated by reference herein, except as required by applicable securities laws.

Additional information identifying risks and uncertainties is contained in filings by the Company with the Canadian securities regulators, which filings are available under the Company’s profile on SEDAR at www.sedar.com.

Neither the Exchange nor its Regulation Services Provider (as that term is defined in policies of the Exchange) accepts responsibility for the adequacy or accuracy of this release.
