

## FREQUENCY EXCHANGE SIGNS WITH MG TECH

### For Immediate Release

**VANCOUVER, BRITISH COLUMBIA – July 28, 2025 – Frequency Exchange Corp.** (“Frequency Exchange” or the “Company”) (TSXV: FREQ, OTC: FRECF) is pleased to announce the signing of an exclusive license with MG Tech to embed our patented Wellness Technology into their Playflex play calling and tracking technology. Owners Melvin Bratton (NFL Agent), Darin Graham (NFL Trainer) and Tandon Doss (NFL Super Bowl Champion) will join our Advisory Board and together with Cam Neely (NHL) and Dr Keith Pyne (MLB) will build the Sports Market for the NIKKI/Playflex Co-Branded wellness technology starting in the United States.

MG Tech and FREmedica plan to launch PlayFlex in the 2026 Football Season. PlayFlex is a technology wearable that enables sending plays from the bench to players while they are in a huddle, tracking players vitals while they play and delivering performance-based wellness support programs in real time. This technology has been designed to improve performance and enhance life for the player on and off the field as well as for their families, friends and fans. This launch engages with football at all levels including Pro (49 teams), College (858 Teams), High School (16,000 teams) and Youth Football (93,000 teams).

*“Our goal to launch PlayFlex Call Playing Tech in the 2026 football season is on track and further enhanced with FREmedica patented technology. The combination of our technologies will change the performance of the player and improve the game. Players will experience greater focus, less pain, more energy and at the same time have their health monitored in real time. 2026 is going to be an exciting season as we see the players executing a more balanced game both on and off the field.”*

**Melvin Bratton President, CEO of MG Tech**

*"FREmedica and MG Tech share an extraordinary opportunity to jointly develop patented technology that not only enhances player's natural playing abilities, but also tracks the status of their health during the game. Play calling will enhance the overall game while Wellness Technology delivered by the NIKKI wearable will track and improve player performance. NIKKI is a product proven to enhance the quality of health for all walks of life, young or senior NIKKI brings balance for better health and performance."* **Darin Graham, Co-Founder of MG Tech**

**Darin Graham**

**Melvin Bratton**

**Tandon Doss**

**Stephen Davis**

*"MG Tech will start next week introducing NIKKI at the Pro Football Team level; giving players, their families, friends and fans an opportunity to enhance their personal wellness and performance while we prepare to launch our PlayFlex Tech in 2026. Our personal experience with NIKKI has inspired us to combine FREmedica technology with our own, to offer a Patented approach to better performance."*

**Tandon Doss, Co-Founder of MG Tech & NFL Super Bowl Champion**

*"Our new partnership with MG Tech will launch NIKKI into the pro sports market. We are combining FREmedica patented technology for delivering frequency enhanced wellness programs with MG Tech Play Calling and Tracking Technology scheduled to launch in the 2026 football season. The founders of MG Tech will also join others on our Advisory Board to build out our sports program for NIKKI worldwide. We welcome the MG Tech team to our company and are excited to bring NIKKI to the sports market."*

## About Frequency Exchange Corp.

Based in British Columbia, Canada, **Frequency Exchange Corp.** is publicly traded under the trading symbols global commercialization of “**NIKKI**”, a Wellness Technology delivering frequency-enhanced TSXV: FREQ; OTC: FRECF ([www.FrequencyExchangeCorp.com](http://www.FrequencyExchangeCorp.com)). Frequency Exchange acquired FREmedica Technologies Inc. in 2022. FREmedica is now a wholly owned and operating subsidiary of Frequency Exchange Corp. FREmedica's business is focused on the development and Wellness Programs. NIKKI means “Victor of the People,”; bringing wellness programs to all walks of life. FREmedica began with the development of a specialized Lyme support program designed to help people struggling with Lyme disease. Now FREmedica, through NIKKI, delivers Wellness Programs to assist with issues including sleep, pain, energy, immunity, and many more. NIKKI delivers Wellness Programs to restore and improve communication in the network of trillions of cells that make up the human body. Strong cell communication is essential to good health.

Health can be disrupted by physical, mental and emotional trauma. For example, poor sleep can be a symptom of pain, stress, and fatigue stemming from poor cell communication. NIKKI delivers specific frequencies into the body for the purpose of restoring proper cell function. Categories of Wellness Programs continue to grow. NIKKI Wellness Technology, combined with frequency-based Wellness Programs, is the result of years of development and experimentation with advanced bioenergetic technology. In third-party quality-of-life testing over an eight-week period, NIKKI proved to provide an unprecedented level of benefits ranging from better sleep and reduced pain to less anxiety and greater energy, with 90% of the test subjects experiencing improvement in overall wellness.
