FREQUENCY EXCHANGE ANNOUNCES GLOBAL DIGITAL PREMIERE OF *SUPERHUMAN 2: THE REBIRTH* SERIES FEATURING NIKKI WELLNESS TECHNOLOGY AND CLOSING OF PRIVATE PLACEMENT

**AI-Generated Image*

For Immediate Release

Vancouver, British Columbia, Canada – October 30, 2026 – Frequency Exchange Corp. ("Frequency Exchange" or the "Company") (TSXV: FREQ) (OTCQB: FRECF) (FSE: YC6): is pleased to announce the worldwide digital premiere of *Superhuman 2: The Rebirth*, the new four-part docuseries from award-winning filmmaker Caroline Cory, featuring NIKKI Wellness Technology, the series' principal partner and the Company's flagship frequency-based wellness platform and wearable device.

Following its Official Selection debut at the DaVinci International Film Festival on September 26, 2026, and red-carpet global premiere in Beverly Hills on October 4, 2026, Superhuman 2: The Rebirth begins its worldwide digital release today, October 30, 2026. The four-part series examines emerging perspectives on human potential, perception and cognitive performance, bringing together a team of leading subject matter experts to provide research-driven insights on innovative approaches to wellness.

The worldwide online premiere began today at 12:00 P.M. PST, with live conversations and Q&A sessions featuring participants in the production. Stephen Davis, CEO of Frequency Exchange and founder of NIKKI Technology, participated in a live conversation and Q&A, followed by the premiere of the four-part docuseries. Tickets for the online event are available at **watch.superhuman2.com**, with each ticket providing access to the complete series for seven days.

"Today's worldwide digital premiere represents an important visibility milestone for NIKKI and Frequency Exchange," said Stephen Davis. "NIKKI's prominent integration throughout *Superhuman 2: The Rebirth*, together with my participation in the live premiere, introduces the technology and our story to an international audience as we continue advancing our broader commercialization and market awareness strategies."

The global digital release builds on the Company's previously announced participation in *Superhuman 2: The Rebirth* and provides international exposure for NIKKI as Frequency Exchange continues to advance commercialization across North America, the Middle East and other international markets. Additional information regarding the premiere and *Superhuman 2: The Rebirth* is available at **watch.superhuman2.com** and **wearenikki.com/superhuman**.

Further to Frequency Exchange's ongoing initiatives to advance commercialization and global expansion, the Company has closed the second and final tranche (the "Final Tranche") of its previously announced Non-Brokered Private Placement (the "Private Placement"), further to its news releases dated July 31, 2026, and September 11, 2026.

The Company issued an additional 241,131 units (the "Units") at $0.25 per Unit for proceeds of $60,282.75, bringing the total Private Placement to 1,949,361 Units for aggregate proceeds of $487,340.25 when combined with the first tranche closing. Each Unit consists of one common share and one-half of one common share purchase warrant (the "Warrant").

Each Warrant is exercisable at $0.40 for a period of 12 months from the date of issuance. Warrants are subject to an acceleration clause whereby, if the volume-weighted average trading price of the Common Shares on the TSX Venture Exchange is at least $0.70 per Common Share for 10 consecutive trading days, the Company may, at its sole option, accelerate the expiry date of the Warrants to a date not less than twenty-one (21) days following notice of the accelerated expiry date by way of news release.

The Company issued 8,000 non-transferable finder's warrants (the "Finder's Warrants") and paid a cash commission of $2,000 to Research Capital Corp. The Finder's Warrants are exercisable at $0.40 per share for a period of 12 months from the date of issuance and are subject to the same acceleration clause as the Warrants. All securities issued in connection with the Final Tranche are subject to a statutory hold period expiring March 1, 2027.

Net proceeds are expected to be used to expand sales and marketing, increase inventory, advance technology and platform development, grow the Company's team, support international expansion, and for general working capital.

The Private Placement is subject to TSX Venture Exchange final approval.

About *Superhuman 2: The Rebirth*

Superhuman 2: The Rebirth is a four-part investigative docuseries by award-winning filmmaker Caroline Cory that examines emerging scientific perspectives on human potential, perception, and cognitive performance. As outlined on superhuman2.com, the series uses structured experiments and interviews to explore phenomena that challenge conventional models of cognition and sensory processing, providing viewers with a research-driven look at evolving wellness approaches in the field.

NIKKI Wellness Technology is prominently integrated throughout the docuseries as an emerging wellness technology. Its integration offers audiences additional context on frequency-based wellness programs within real-world observational settings, aligning with the background provided at **wearenikki.com/superhuman**.

About Frequency Exchange Corp.

Frequency Exchange Corp. (TSXV: FREQ | OTCQB: FRECF | FSE: YC6) is a technology company building the next generation of wearable digital wellness solutions through its flagship platform, NIKKI. Unlike traditional wearable devices that primarily monitor health metrics, NIKKI delivers personalized frequency-based wellness programs designed to support sleep, stress, recovery, energy and overall wellbeing. Originally developed through research supporting individuals living with Lyme disease, NIKKI has evolved into a scalable wearable digital wellness platform addressing some of today's largest global health challenges.
